Lubrication Oil								
approximately	y three feet	in diameter was ir	npacted by the re	leased	d fluids. No st	taining liquids. N	from the Stewart LS #5 riser. An area of No washes/waterways were affected. No report will be submitted with the "Final C-	

141."

Was this a major release as defined by 19.15.29.7(A) NMAC?	release as defined by 19.15.29.7(A)									
☐ Yes ⊠ No										
If YES, was immediate no	Lotice given to the OCD? By whom? To	whom? When and by wh	at means (phone, em	ail. etc)?						
If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)?										
Initial Response										
The responsible party	y must undertake the following actions imm	ediately unless they could crea	ate a safety hazard that	would result in injury						
 ☑ The source of the release has been stopped. ☑ The impacted area has been secured to protect human health and the environment. 										
Released materials have been contained via the use of berms or dikes, absorbent pads, or other containment devices. All free liquids and recoverable materials have been removed and managed appropriately.										
•	bed above have <u>not</u> been undertak		appropriately.							
Dor 10 15 20 9 B (4) N	JMAC the responsible party may a	ommonoe romodiation is	mmodiatoly after di	provery of a release. If						
Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.										
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
