Subject: Anticipated Actions Approval (2011) (1R-2162) - Plains 14-inch Vac to Jal Legacy Release Site

**RE: 2011 Annual Monitoring Report and Site Closure Request for the Plains Pipeline, LP's 14-inch Vac to Jal Legacy Release Site (1R-2162)
Unit Letter F, Section 25, T22S, R37E, NMPM, Lea County, New Mexico
Anticipated Actions Approval**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received Plains' report (including proposed "Anticipated Actions") the above-referenced site (dated March 2012). The above-referenced report, submitted in partial fulfillment of 19.15.29 NMAC (Rule 29, formally, Rule 116), indicates that Plains has partially met the requirements of 19.15.29 NMAC for this site. Therefore, the OCD hereby approves the Anticipated Actions for the 14-inch Vac to Jal Legacy Release Site.

Please be advised that OCD approval of this report does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.

Subject: Soil Closure Approval (1R-2162) - Plains 14-inch Vac to Jal Legacy Release Site

**RE: 2011 Annual Monitoring Report and Site Closure Request for the Plains Pipeline, LP's
14-inch Vac to Jal Legacy Release Site
Unit Letter F, Section 25, T22S, R37E, NMPM, Lea County, New Mexico
Soil Closure Approval (1R-2162)**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received the Plains Pipeline, LP's (Plains) Soil Closure Request, including additional information to the report of November 2010, for the Remediation Plan (1R-2162) for the 14-inch Vac to Jal Legacy Release Site, dated March 2012. The above-referenced reports, submitted in fulfillment of 19.15.29 NMAC (Rule 29, formally, Rule 116), indicates that Plains has partially met the requirements of 19.15.29 NMAC for this site. Therefore, the OCD hereby conditionally approves the soil closure for the 14-inch Vac to Jal Legacy Release Site and no further soil remediation is required for this site:

The Plains 14-inch Vac to Jal Legacy Release Site is still active under Remediation Plan, 1R-2162, and groundwater monitoring, further groundwater contamination delineation if warranted and groundwater remediation must continue at the site.

Please be advised that OCD approval of this request does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

Thank you for your cooperation in this matter. If you have any questions regarding this matter, please contact at 505-476-3489.
