X All pits have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan.

X Rat hole and cellar have been filled and leveled. Cathodic protection holes have been properly abandoned.

X A steel marker at least 4" in diameter and at least 4' above ground level has been set in concrete. It shows the

OPERATOR NAME, LEASE NAME, WELL NUMBER, API NUMBER, QUARTER/QUARTER LOCATION OR UNIT LETTER, SECTION, TOWNSHIP, AND RANGE. ALL INFORMATION HAS BEEN WELDED OR PERMANENTLY STAMPED ON THE MARKER'S SURFACE.

X The location has been leveled as nearly as possible to original ground contour and has been cleared of all junk, trash, flow lines and other production equipment.

X Anchors, dead men, tie downs and risers have been cut off at least two feet below ground level.

X If this is a one-well lease or last remaining well on lease, the battery and pit location(s) have been remediated in compliance with OCD rules and the terms of the Operator's pit permit and closure plan. All flow lines, production equipment and junk have been removed from lease and well location.

X All metal bolts and other materials have been removed. Portable bases have been removed. (Poured onsite concrete bases do not have to be removed.)

X All other environmental concerns have been addressed as per OCD rules.

X Pipelines and flow lines have been abandoned in accordance with 19.15.35.10 NMAC. All fluids have been removed from non-retrieved flow lines and pipelines.

X If this is a one-well lease or last remaining well on lease: all electrical service poles and lines have been removed from lease and well location, except for utility's distribution infrastructure.

When all work has been completed, return this form to the appropriate District office to schedule an inspection.

**Subject:** RE: Hobbs Brine Well BW-18 Release of Location

All,

The NMSLO has reviewed this site and recommends closure. The pole and x-formers are EXEL Energy's equipment and the weatherhead drop is on their system. This equipment enhances the NMSLO's ability to lease as a commercial facility.

Subject: Re: Hobbs Brine Well BW-18 Release of Location

Dear OCD,

We have submitted the final C-103 and we have met with EXCEL Energy. The pole and x-formers are their equipment and the weatherhead drop is on their system. This equipment enhances the SLO's ability to lease as a commercial facility. The OCD environmental bureau has been in the loop on this issue and no further actions have been required by Santa Fe.

We respectfully ask you to release the site so we can close out with SLO, as our lease will have to be renewed if we cannot get your approval.
