## Hilcorp Energy Company BGT Modification

Hilcorp Energy Company is requesting to modify the below-grade tank permits for San Juan 28-7 Unit 8A and San Juan 28-7 Unit 248F. Separate below-grade tank permits were filed for both wells on 12/22/2008.

Hilcorp found that the San Juan 28-7 Unit 8A shares a below-grade tank with the San Juan 28-7 Unit 248F and would like to modify the existing permits to include both wells and modify latitude/longitude to reflect the center of the existing below grade tank.
