N-5-10N-27E (1 well): Inspect site of well completed as shut in gas producer ten months ago. Location not cleared, pits not covered. (Yates)

N-32-11N-27E (1 well): Inspect site of well which had production casing set almost 9 months ago. Testing terminated 5 months ago. No further plans announced. Well not plugged, location not cleared. (Yates)

P-17-15N-33E (1 well): Inspect site of well^{drilled} in 1971 and abandoned (Federal minerals). Repeated attempts to have plugging done have failed to date. Last action was demand by BLM for Bond company to have well plugged prior to February 19, 1983. No plugging yet done. (Haskins)

E-12-19N-30E (1 well): Investigate conditions at well completed as shut-in CO₂ producer 6-1-80. New well-head installed, acid tanks on location. Operator advised recompletion underway. (Ross)

F-12-19N-30E (1 well): Investigate activity at well drilled and temporarily abandoned 11-22-83. Found well being flowed to pits. Acid tanks & other equipment on site. Operator advised that perforating and fracturing had been done; and potential would be reported. (Ross)
