RE: Condition of Approval
Bueyeros Com Well No. 1
J-35-21N-29E, Harding County, New Mexico

Gentlemen:

Enclosed please find an approved Form C-101 on the above referenced well. Due to the "wildcat" status of this well this application has been approved despite the fact that its surface location is non-standard according to New Mexico Oil Conservation Division rules and regulations. This non-standard location will have to be approved by this division prior to approval of the division's Form C-104.

I also request that ample notice be given this office in order that the 11 3/4" and 8 5/8" casing and cement jobs can be witnessed by a division representative.

I have also been advised by Mr. Bill Prichard of your office that this well will be utilizing the same drill site as your BDCDGU 2129-351J (2310 FSL x 2310 FEL) and that there may be some discrepancy with these surveys. Please verify these surveys and should the well 351J location be wrong a new Form C-102 for this well will be required for data correction.

Should you have any questions pertaining to these matters, please contact me at (505) 827-8198.

Roy E. Johnson
District IV Supervisor
