

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

NOTICE OF INTENTION TO DRILL

Notice must be given to the Oil Conservation Commission or its proper agent and approval obtained before drilling begins. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to the sender. Submit this notice in triplicate. One copy will be returned following approval. See additional instructions in Rules and Regulations of the Commission.

Bueyeros, New Mexico

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as

Application made by Keahey & Webb

Company or Operator

Lease

Well No. 1

in

of Sec. 19, T. 20R. 31 E., N. M. P. M.,BacaField, Harding

County.

N.

The well is 1320 feet ~~xx~~ (S.) of the north line and 1320 feet~~xx~~ (W.) of the east line of northwest quarter

(Give location from section or other legal subdivision lines. Cross out wrong directions.)

If state land the oil and gas lease is No. Assignment No.

If patented land the owner is Fulgencio C. de BacaAddress Bueyeros, New Mexico

If government land the permittee is

Address

The lessee is John P. HealyAddress Bueyeros, New MexicoAREA 640 ACRES
LOCATE WELL CORRECTLY

Standard equipment

We propose to drill well with drilling equipment as follows:

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows:

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
15 in.	12 in.	50 lb.	second hand	57 ft.	landed	--
12 in.	10 in.	40 lb.	second hand	130 ft.	landed	--
10 in.	8 in.	32 lb.	second hand	561 ft.	landed	mudded bottom
8 in.	6 in.	20 lb.	second hand	841 ft.	landed	mudded to top of 8 in.
6 in.	5 3/16 in.	17 lb.	second hand	1612 ft.	landed on lime shell & mudded to top	

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 1697 feet.

Additional information: All strings landed in good heavy mud and the last two strings being mudded to top of hole with mud used being from 14 to 16 lbs. to the gallon.

SECTION 1. PURPOSE AND SCOPE

The purpose of this document is to provide a comprehensive overview of the current status of the project, including the progress made to date, the challenges encountered, and the proposed solutions. This document is intended for the use of the project management team and the steering committee.

The scope of this document is limited to the project's progress and challenges. It does not include a detailed analysis of the project's financial performance or a comparison of the project's results to the original objectives.

The document is organized into several sections, each covering a different aspect of the project. The first section, 'Purpose and Scope', provides an overview of the project's goals and objectives. The second section, 'Progress to Date', details the work completed to date.

The third section, 'Challenges Encountered', describes the difficulties faced by the project team. The fourth section, 'Proposed Solutions', outlines the strategies proposed to address these challenges. The fifth section, 'Conclusion', summarizes the key findings of the document.

The document is intended to be a living document, updated as the project progresses. It is the responsibility of the project management team to ensure that the information contained in this document is accurate and up-to-date.

The document is subject to review and approval by the steering committee. Any changes to the document must be approved by the steering committee before they can be implemented.

The document is intended to be a confidential document. It should not be distributed outside the project management team or the steering committee without the approval of the project manager.

CONFIDENTIAL - SECURITY INFORMATION
EXCLUDED FROM AUTOMATIC DOWNGRADING AND DECLASSIFICATION
