Mr. E. H. Wells
State Geologist
Santa Fe, New Mexico

Dear Sir:

I am sending you notice of intention to drill new well and bond filled out, that you sent me.

We are ready to start on this location and as I lost a little time in getting these signed and ready to mail, would like to have an answer on them as soon as possible.

We will keep you posted on what we are doing here and any inquiry that you shall make will have our immediate attention, and any advise that you may give us will be appreciated.

This being new territory it is hard to give an exact casing record and any changes that we make you will be notified of.

I wish you would send some more form SG 101 as we intend to start some more holes soon so as to give this structure a real test.

Yours truly,

A. S. Waddell
