Re: Hoover Ranch "A"
Well No. 1

Gentlemen:

Reference is made to your letter of July 2, 1960, requesting additional time in which to comply with requests made by the writer in the letter to you dated May 20, 1960. Inasmuch as it has been more than a year since the subject well was plugged, the writer is of the opinion that sufficient time has lapsed during which proper attention could have been directed toward bringing this matter to conclusion. You are hereby notified that you are granted until July 30, 1960, to comply with the Rules and Regulations of the Commission regarding the Plugging and Abandonment of a well.

It is pointed out that the drums referred to in the writers letter May 20, 1960, did or still contain formaldehyde and thus constitute hazard to cattle grazing in the vicinity of the well and it is the wish of the area manager that said drums be removed. Also, you are reminded that a location marker is defined by the Rules and Regulations of the New Mexico Oil Conservation Commission (Rule 202) as a "steel marker at least 6 inches in diameter set in concrete, and extending at least four feet above mean ground level."

Your earliest cooperation in this matter is earnestly solicited.

Very truly yours,

J. E. KAPTEINA
District Engineer

OIL CONSERVATION COMMISSION

P. O. BOX 871

SANTA FE, NEW MEXICO

July 1, 1936

Mr. J. H. ...
Santa Fe, New Mexico

Dear Sir:

Very truly yours,

Reference is made to your letter of June 2, 1936, requesting information regarding the proposed oil conservation program in the Santa Fe area. The Commission is currently conducting a study of the oil resources in this area and will be glad to furnish you with the results of this study as soon as they are available. In the meantime, you are requested to continue your efforts to conserve the oil resources in your area and to report the results of these efforts to the Commission at the next meeting of the Santa Fe Oil Conservation Committee.

The Commission is also interested in the results of your efforts to conserve the oil resources in your area. We will be glad to receive reports from you at the next meeting of the Santa Fe Oil Conservation Committee. The Commission is also interested in the results of your efforts to conserve the oil resources in your area. We will be glad to receive reports from you at the next meeting of the Santa Fe Oil Conservation Committee.

Very truly yours,

W. H. ...
