Santa Fe, New Mexico

DUPLICATE

NOTICE OF INTENTION TO DRILL

Notice must be given to the Oil Conservation Commission or its proper agent and approved before drilling begins. If changes in the proposed plan are considered advisable, a copy of this notice showing changes will be returned to the sender. Submit this notice in triplicate. One copy will be returned following approval. See additional instructions in Rules and Regulations of the Commission.

Lubbock, Texas,

June 4th, 1940

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico,

Place

Date

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as _____

J.P. Stewart

Harry Lammons

Company or Operator

Lease

Well No. 1 in NE 1/4

of Sec. 3, T. 3 N, R. 12 E., N. M. P. M., Wildcat Field, Torrence County.

N.

2

The well is 650 feet (N.) (S.) of the north line and 350 feet (E.) (W.) of the east line of the NW 1/4 of NE 1/4 Sec. 3,

(Give location from section or other legal subdivision lines. Cross out wrong directions.)

If state land the oil and gas lease is No. _____ Assignment No. _____

If patented land the owner is Harry Lammons

Address Fort Sumner, New Mexico

If government land the permittee is _____

Address _____

The lessee is J.P. Stewart

Address Paducah, Texas

We propose to drill well with drilling equipment as follows: Super (H)

Fort Worth Spudder

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: Bond is applied for and approved by local agent and is being forwarded to the New Mexico Oil Conservation Commission, Santa Fe, N.M.

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
12 1/2"	10"	?	second hand	Aproxi. 500 ft.	?	Approx. 20 sacks

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 520 1200 feet.

Additional information: This well is to be drilled to a depth of 1500 feet unless oil or gas is found at a lesser depth, or granite is encountered.

JUN 25 1940

Approved _____, 19____

Except as follows:
