Mr. Daniel S. Nutter
Petroleum Engineer
New Mexico Oil Conservation Commission
Santa Fe, New Mexico

Dear Mr. Nutter:

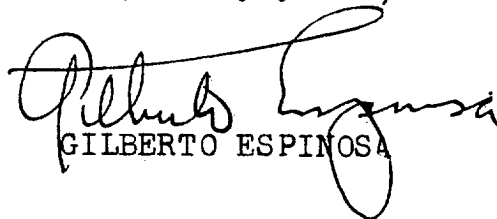

I will appreciate very much a reply to my letter of August 19th, with reference to the open holes which Mr. Ringle has left unplugged on the lands of the Tome Grant. He has signed a Bond to guarantee that these be closed.

I do not want to advise my clients to violate the law, however, these open holes are a menace and a danger to people and cattle passing over these lands. So far as the gas well, which is capped, it makes little difference to us.

If you do not intend to require Mr. Ringle to plug these wells, do you have any objections to our filling them up with dirt and stone?

The courtesy of your reply will be appreciated.

Very truly yours,

GILBERTO ESPINOSA
