Coty,

Your delineation proposal is approved. The proposal indicates samples will be obtained to 5' bgs. Sample depth is to be determined by impact, and may require samples to be obtained at depths greater than 5'.

Please advise once this work has been scheduled. If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
