NATURE OF RELEASE

Type of Release	Crude Oil	Volume of Release	5 bbls	Volume Recovered	3 bbls
Source of Release	2-Inch Sump Line	Date and Hour of Occurrence	11/25/2014 @ 07:00	Date and Hour of Discovery	11/25/2014 @ 07:15
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Verbal notification to Tomas Oberding.		
By Whom?	Camille Bryant	Date and Hour	11/25/2014 2 11:00		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

APPROVED

By OCD District 1 at 9:15 am, Jul 22, 2015

Describe Cause of Problem and Remedial Action Taken.*

Internal corrosion of a 2-inch 90 resulted in a release of crude oil.

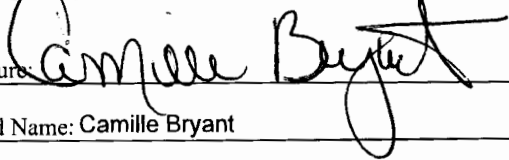

RECEIVED

By OCD District 1 at 9:15 am, Jul 22, 2015

Describe Area Affected and Cleanup Action Taken.*

The released crude oil impacted an area measuring approximately 50' x 60' inside the facility. The impacted area was remediated per NMOCD recommended guidelines to the extent practicable. Soil samples collected from the floor and sidewalls of the excavation were analyzed by an NMOCD-approved laboratory, and concentrations of benzene, BTEX, and chloride were below the recommended remediation action levels (RRAL's) established for the site by the NMOCD. Soil exhibiting TPH concentrations above the RRAL will be remediated upon deactivation/decommission of the currently active station. Please reference the attached "Remediation Summary & Risk-Based Site Closure Request" for remediation details.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
