Latitude 32.57129 Longitude -103.73366 NATURE OF RELEASE												
Type of Release Crude Oil & Produced Water						Volume of Release 8 B/O & 17 B/PW			Volume Recovered 3 B/O & 7 B/PW			
Source of Release						Date and Hour of Occurrence			Date and Hour of Discovery			
Poly line						9/9/2015; AM			9/9/2015; AM			
Was Immediate Notice Given?						If YES, To Whom? d Kellie Jones & Jim Amos						
By Whom?						Date and Hour						
Robert Asher/Yates Petroleum Corporation						9/9/2015; PM (Email)						
Was a Watercourse Reached?						If YES, Volume Impacting the Watercourse.						
☐ Yes ☒ No												
If a Watercourse was Impacted, Describe Fully.*												
Describe Cause of Problem and Remedial Action Taken.* Release was caused by the failure of a poly flow line which released crude oil and produced water. Vacuum truck(s) and roustabout crews were called. Describe Area Affected and Cleanup Action Taken.* An approximate area of 80' X 40' was affected between the two pumping units on the well pad. Vacuum truck was dispatched to retrieve standing fluids, roustabout crew was called to repair the flow line and a backhoe was called to remove impacted soil. Excavated soils will be hauled to a NMOCD approved facility. Vertical and horizontal delineation samples will be taken and analysis ran for TPH & BTEX (chlorides for documentation). If initial analytical results for TPH & BTEX are under RRAL's (site ranking is 10) a Final Report, C-141 will be submitted to the OCD requesting closure. If the analytical results are above the RRAL's a work plan will be submitted to the OCD. Depth to Ground Water: 50-99' (approximately >76', Section 14, T20S-R32E, per Trend Map), Wellhead Protection Area: No, Distance to Surface Water Body: >1000', SITE RANKING IS 10. I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
