### NATURE OF RELEASE

Type of Release: <b>Spill</b>	Volume of Release: <b>15.77 BBLS</b>	Volume Recovered: <b>10 BBLS</b>
Source of Release: <b>Flowline</b>	Date and Hour of Occurrence <b>04/4/2016 8:00 am</b>	Date and Hour of Discovery <b>04/4/2016 8:30 am</b>
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour:	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.*		
Describe Area Affected and Cleanup Action Taken.*		
On Monday April 4, 2016 at 0830 (MDT), a spill occurred at the EVGSAU 3366-029 after MSO discovered a flowline leak during routine checks, resulting in the release of 5.77 bbls produced water and 10 bbls oil, with 10 bbls of fluid recovered. Immediate action was to isolate the well and contact supervision. Location will be remediated as per NMOCD and COPC policies.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
