Good Morning Amber,

Attached please find photographs from the original closure report, as well as pictures taken last Friday. As you can see, in the last ten years the area has revegetated. Based upon observation of current vegetation density/native vegetative cover, a revegetation plan is not warranted for this location. Please let me know if you have any questions.

I look forward to hearing from you,

Wendy S. Acosta Quintero

Subject: [EXTERNAL]RE: State C-20 #1 Flow Line, 1RP-1434

Good Morning, Wendy,

NMSLO will agree that remediation efforts have been achieved. NMSLO requires revegetation plans for any releases that are in a pasture. I will need one for this location. Also, it will not be fully released from NMSLO until desired vegetation is achieved. I have attached our requirements for the revegetation plan.

Thank you,

Amber Groves

Subject: RE: State C-20 #1 Flow Line, 1RP-1434

Dear Ms. Quintero:

Please see attachment for your records. Like approval from NMSLO is required.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-1434** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Olivia,

Just sent this message to Tomas and received an automatic reply of a backlog. Just want to make sure it gets to someone.

Thank you,

Wendy

Hello Tomas,

I hope this email finds you well. We were looking through some of our spill records and realized that we have five order numbers that are still open. Attached please find the closure report that should have been sent to the NMOCDD May 2008. Please let me know if this will be sufficient to close this action item. I will appreciate if you could send an approved final C-141.

Thank you in advance,

Wendy S. Acosta Quintero
