---

Ms. Builta,

Please note that the OCD has become aware of a spill on your State Land 76 Well#1. The contamination appears to be extant for some period as there are ~Cl crystals and dried hydrocarbons present. The berms were rebuilt using contaminated soils which without prior testing is not permitted.

Please note if this release was discovered by Kevin O Butler (KOB) personnel more than 15 days ago, KOB are in violation of 19.15.29.

A C-141 must be provided to the OCD within 15 days of the discovery of a spill.

Please let me know if you have any questions or concerns.

Mahalo

一期一会

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
