Subject: RE: 5.31.17 Revised Enervest Jack B-30 #2 1RP-4564 Corrective Action Plan and backfill request
Date: Friday, June 16, 2017 3:52:00 PM
Attachments: approved_5.31.17 Revised Enervest Jack B-30 #2 1RP-4564 CAP.pdf

Mr. Leking:

NMOCD approves of the corrective actions and remediation process as written in the corrective action plan for 1RP-4564. Approval is given for backfilling. Please see the attachment for your records.

Thanks,

Olivia Yu
Environmental Specialist
NMOCD, District I
Olivia.yu@state.nm.us
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Olivia and Shelly

On the behalf of Enervest Operating, Etech Environmental & Safety Solutions, Inc. is pleased to submit the above referenced document for your review. The following revisions are included in this document:

- 1) Background – Text has been added describing the most recent field activities and an interpretation of the analytical results.
- 2) Table 2 – The analytical results from the most recent sampling events have been added.
- 3) Depth and Method of Remediation – Table 3 – The table has been revised per the most recent field activities.
- 4) Attachment B – Annotated Aerial Imagery – A map has been added displaying the most recent sampling locations and a polygon outlining the most recent excavation(s) completed on May 12, 2017 with excavation depths denoted.
- 5) Attachment D – Photo Log – Photo documentation of the most recent field activities has been added.
- 9) Attachment F – Analytical Results – The analytical results for the most recently collected soil samples have been added.

Once you have reviewed the document and if approved, Enervest requests that they be allowed to backfill the

excavation(s), reseed the pasture, and rebuild the tank battery including the emplacement of the plastic liner.

I look forward to your response. Please contact me with any questions or concerns. Thank you.
