Good Morning, Jennifer,

Attached, please see a photo taken this morning in the overspray area of product on the ground. NMSLO is in agreement with the conditions set forth by NMOCD and would like to request representative soil sampling in the overspray area. Please run for CL, TPH and BTEX.

Thank you,

Amber Groves

Hi Olivia,

I had spoken to Tomas on this one and the plan was to delineate with PID as we do the cleanup and send a bottom and side walls to lab. Everything should be right at surface due to ground hardness. We will also delineate inside the firewall area. The pasture doesn't have any hydrocarbon on the ground. It is only on the vegetation. I will go ahead and grab a sample if you feel it is necessary.

I will make the changes to the plan for approval to start work.

Thanks,

Jennifer

In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
