---

Good Afternoon, Joel,

NMSLO is in agreement with NMOCD on delineation and CAP approval.

Thank you,

**Amber Groves**

**Subject:** RE: Plains Alpha Lynch Station - Delineation Plan

Good morning Mr. Lowry:

NMOCD approves of the corrective actions and proposed delineation for 1RP-4739. Permissible chloride levels are  $\leq 600$  mg/kg obtained and maintained for a minimum of 5 ft. in depth or as practicable for vertical delineation. Please confirm.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)  
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

**Subject:** Plains Alpha Lynch Station - Delineation Plan

Olivia and Amber,

Please find attached the *Delineation Plan* that has been prepared for Plains' Alpha Lynch Station release site. Upon your review and approval, Plains is prepared to begin delineation activities. If you have any questions or need any additional information, please feel free to contact me by phone or email. Thanks.

Respectfully,

Joel Lowry

Terracon provides environmental, facilities, geotechnical, and materials consulting engineering services delivered with responsiveness, resourcefulness, and reliability.
