Good Morning, Kyle,

NMSLO agrees with NMOCD on approval of delineation and remediation at this location.

When you turn in the closure, please put something in the re-veg about noxious weed monitoring.

Thank you!

Dear Mr. Norman:

NMOCD approves of the delineation and remediation completed for 1RP-4511. Backfill approval is

granted. On the final C-141, please indicate the various depths of excavation in the vicinity of the release point and the track road.

Please see the attachment for your records. Like approval from NMSLO is required for delineation, remediation, and revegetation plan.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
