**Subject:** RE: Linn - Phillips Lea North & South Battery (1R-4075) Closure Request  
**Date:** Wednesday, May 31, 2017 4:25:00 PM

---

Dear Ms. Flores:

In order to close 1RP-4075, please inspect the liner in question and if available, provide landfill tickets or a record of the removal of contaminated fill or proper disposal of liquids. It is OCD's understanding that all impacted material in the containment has been removed and the liner inspected for integrity. Provide NMOCD with a concise report of the inspection with affirmation the liner has and will continue to contain liquids. Pictures are strongly encouraged as documentation.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
