Dear Mr. Hicks:

NMOCD approves of the proposed sampling locations for 1RP-4778. In the subsequent report, NMOCD requests that GPS coordinates of the delineation sample locations be demarcated on an appropriately scaled map or tabulated.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
