Mr. Brunson:

NMOCD approves of the delineated completed and proposed remediation for 1RP-4824. In the remediation report, on an appropriately scaled map, please include the release point. Also, please establish one of the confirmation sample location on the border between the proposed 6-inch and 1.5 ft excavation areas.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
