The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Dear Mr. Arguijo:

NMOCD approves of the delineation and proposed remediation for 1RP-4762 with these conditions:

1. Laboratory analyses (BTEX, TPH extended, and chlorides) of bottom and sidewall confirmation samples. Sample locations must be no greater than 50 ft. apart.

2. Scaled map with confirmation sample locations marked and excavated area outlined.

Please see the attachment for your records.

Like approval from BLM required.

Thanks,

Olivia Yu

Subject: Spill Remediation Plan - Red Tank 24 Fed. 1 & 2 CTB (1RP-4762)

Ms. Yu,

Trinity Oilfield Services, on behalf of OXY USA, Inc., is pleased to submit the attached *Environmental Site Summary & Spill Remediation Plan* for the Red Tank 24 Fed 1 & 2 CTB release site in Lea County (1RP-4762). Trinity is prepared to begin the proposed remediation activities upon your review and approval.

If you should have any questions, comments, or concerns, please do not hesitate to contact me by telephone or email.

Thank you for your time and consideration.

Respectfully,

Ben J. Arguijo
