---

Dear Mr. Gray/Mr. Holmes:

For future reference, please remember to date all photo documentation. Thank you for your compliance.

The available information indicates **OPERATOR** has met the requirements of 19.15.29 NMAC and no further corrective action is required. NMOCD considers **1RP-4931** closed. This determination by the Oil Conservation Division does not relieve Operator of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve Operator of responsibility for compliance with any federal, state, or local laws and/or regulations.

Thanks,

Olivia Yu  
Environmental Specialist  
NMOCD, District I  
[Olivia.yu@state.nm.us](mailto:Olivia.yu@state.nm.us)  
575-393-6161 x113

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

---

Olivia:

Please find attached the final C-141 for the Stakeholder Midstream release 1RP-4931. Also attached are closure photos.

I wish to thank you for all of your assistance on this project. Should you have any questions, please contact me via this email or at 432-631-3757 if you wish to speak with me in person.

Respectfully,

Fred Holmes
