Good morning Scott:

Thank you for your patience. NMOCD approves of the proposed additional monitoring well to complete site assessment for 1RP-915.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
