1RP5207_Cal C Blowdown C-141 09212018 - SIGNED.pdf

Good morning Ms. Blackaller:

NMOCD databases indicate the Cal C pipeline is on Federal surface and minerals ownership. BLM can verify whether these gaseous emissions necessitate reporting on a sundry.

The 1RP for this incident is

5207	9/27/2018	A	ETC Texas Pipeline, Ltd.	Cal C pipeline; Lea County, NM		26S-32E-7C	9/7/2018
-------------	-----------	---	--------------------------	--------------------------------	--	------------	----------

Please remember to include this 1RP identifier to all communications.

Thanks,

Olivia Yu

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Good afternoon, Christina and Olivia

It was a pleasure meeting you both this morning. I'm emailing to notify you of two gas releases that occurred on Energy Transfer's Cal C Pipeline in Lea County, NM. The first gas release occurred on 9/7 with an approximate 3,107 Mcf release. The second gas release occurred on 9/8 with an approximate 5,986 Mcf release. Both of these releases were due to pipeline corrosion with repairs taking place. I will work on getting you the C-141s. If you have any questions or require additional information in the meantime, please do not hesitate to contact me.

Warm Regards,

Carolyn J. Blackaller
