The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. **In such an event a site does not achieve successful restoration, or future issues with contaminants are encountered, the operator will be asked to address these issues until they are fully mitigated and the location is successfully reclaimed.** In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Olivia and Shelly,

This is another incident.

I was just looking back through my records and am unable to find a response from either of you for final closure of this incident. In turn, I am following up to verify that this closure report is acceptable and that this incident has been closed?

Thanks,

Mike Shoemaker
