RECEIVED
By Olivia Yu at 2:36 pm, Jan 12, 2018

Describe Cause of Problem and Remedial Action Taken. *

On January 10, 2018 at 0500 hrs. at Battle Axe 27 Federal CTB, A fire occurred after some liquid carry over to the flare was pushed out and ignited causing a fire at the base of the flare. Fire remained on the pad and extinguished shortly after by COP personnel. An investigation into the occurrence is underway.

Describe Area Affected and Cleanup Action Taken. *

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
