13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Centennial Resource Production, LLC, respectfully submits sidetrack info for the Donkey Kong 1 Fed Com 602H well.

As was discussed with Olabode Ajibola on 03/04/20 for initial approval, and Jeremy Porter on 03/05/20 for subsequent follow-up, while drilling the Donkey Kong 1 Fed Com 602H well, Centennial had to sidetrack the well for geological reasons. The original well plan was based on the target zone having an up dip. As we drilled the lateral section, we found the target zone to have a down dip instead which led to us being above and out of our target zone. Centennial stopped drilling at 13,386? MD. Our last survey was at 13,346? MD 11,315.35? TVD 89.42 INC 6.15 AZM.

The sidetrack plan was to pull back to 11,690?, establish a trough from 11,690? to 11,720? and begin sidetracking down. Please see sidetrack attachment.

14. I hereby certify that the foregoing is true and correct.
