13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

ConocoPhillips Company respectfully requests approval for additional surface disturbance on the subject lease. On 4/20/20, a leak was detected along a pipeline ROW approximately 1218' NW from the subject well - located at 32.8118, -103.7945 in Unit D Sec 29, T17S, R32E on lease NMLC029410A. The leak was approximately 4.25 bbls and in order to reach the contaminated location, a temporary access road is needed. The access road will be approximately 130' L x 10' W and constructed with a backhoe where the red line is depicted on the attached shapefile. The area of release will be hand dug. We will rake the tracks and seed the area once we are finished.

14. I hereby certify that the foregoing is true and correct.
