	<input type="checkbox"/> Water Disposal
	<input type="checkbox"/> Water Shut-Off
	<input type="checkbox"/> Well Integrity
	<input checked="" type="checkbox"/> Other Workover Operations

13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

LINN proposes to move a rig onto location to identify the source of pressure loss that caused the well to fail a Mechanical Integrity Test (MIT). LINN will inspect the wellhead, tubing, packer and replace the equipment as necessary. If the tubing, packer, and wellhead are not the source of pressure loss, LINN will isolate the casing leak with a RBP/Packer. Once the leak is isolated, LINN will verbally notify the Regulatory Agencies and secure approval before proceeding with the casing remediation work.

14 I hereby certify that the foregoing is true and correct

**Electronic Submission #118168 verified by the BLM Well Information System
For SANDRIDGE EXPL & PROD LLC, sent to the Hobbs
Committed to AFMSS for processing by DEBORAH MCKINNEY on 09/22/2011 (11DLM0787SE)**
