Celero Energy II, LP Attn: Lisa Hunt 400 W. Illinois, Ste. 1601 Midland TX 79701

Subject: Two year monitoring status for Drickey Queen Sand Unit #835 well.

Ms. Lisa Hunt,

The Bureau of Land Management (BLM) – Roswell Field Office is in receipt of your Subsequent Sundry Notice on Form 3160-5 (Sundry Notice and Reports on Wells) dated March 04, 2013 for the Drickey Queen Sand Unit # 835, <u>API No. 30-005-00996</u> located 1989 FNL & 330 FEL of Section 5, Township 14S, Range 31E, Chaves County, New Mexico. As stated, reclamation of the location has been completed.

BLM has placed the location in monitoring status pending satisfactory re-vegetation. Please continue your monitoring of this location for a minimum of two growing seasons. When the site appears to be in a safe, stable, and satisfactory re-vegetative state; submit a Final Abandonment Notice on Form 3160-5 (Sundry Notice and Reports on Wells) stating surface restoration of the well pad and access road is complete and are ready for inspection. BLM will then inspect the location, if it meets BLM standards, will process and approve your request for Final Abandonment. 43 CFR 3162.3-4 (c), states "...the surface of the lands disturbed in connection with the conduct of operations shall be reclaimed in accordance with a plan first approved or prescribed by the authorized officer".

Your liability under bond is retained until surface reclamation is complete and approved by the Authorized Officer. If you have any questions concerning the location, please contact Robert Bussell, Environmental Protection Specialist, Roswell Field Office at (575) 627-0249 or rbussell@blm.gov.

Sincerely

HOBBS OCD
