13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

This well is currently capable of producing economically and was doing so when it was shut in July 2008. The well was shut in because the Shoreham gathering system and plant shut down. The Shoreham plant was the only market available for the gas.

The plant is currently in the process of being re-built and the gathering system is being re-activated. I have been in contact with the new owner of the former Shoreham pipeline and they tell me that they are working on and should be able to get that line operational again. I hereby request and extension of my TA status for another year while we wait to be able to once again sell gas and oil from the lease.

**DENIED! See Sixty (60) Day Letter. Original TA , Status Approval Expired 02-09-2011. Extension Of TA Status Can Not Be Approved Without Production Of Oil And/Or Gas In Paying Quantities!**
