13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

In response to Notice of Written Order and/or Notice of Violation dated May 23, 2010 and subsequent correspondence with Bureau of Land Management, well was placed on production on or about August 16, 2011 and as of November 31, 2012 has averaged an estimated 1.96 barrels of oil per day. This subsequent report shall negate the PxA procedure as requested due to operator placing said well on production in paying quantities.

This Well has produced only one Barrell of oil in the Last 4 months which is not currently economic.
