Subject: Hunger Buster Meter run

Mark,

I spoke with Mr. Thomas Green w/ Enterprise. I let him know that we had plugged the Hunger Buster #3 and that you guys were requesting that Enterprise come get their meter run. Mr. Green said he would put it on the list. I also let them know about that piece of 10" line that stubs up out of the ground south of our their meter run. He said that it was already on their list to address.

Our regulatory department is in the process of filing the second, plugging-specific, C-103 indicating that our location has been remediated and that it is ready for inspection. They said they would have it sent in either today or tomorrow. Please let me know if anything else is needed.

Thanks,

David Zerger
