13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BLM approval is respectfully requested to lay down all the current rods, pump and tubing equipment; install a cast iron bridge plug (CIBP) on wireline at 2850' above the current Seven Rivers perforations from 2925'-3470'; dump 35' of cement on top of the CIBP using a dump bailer for PBTD 2815'; and perform a mechanical integrity test (MIT) to 500 psig for 30 minutes on the 4 1/2" production casing. If a successful MIT is obtained, we propose that the well be temporarily abandoned pending the evaluation of possible recompleat or a proposal to plug and abandon the wellbore. If the well fails the MIT test, a proposal to plug and abandon the wellbore will be promptly submitted for BLM approval.

**DENIED**

*submit for approval a notice of intent to Plug and Abandon the well.*
