HOBBS OCD

Ref:

New Mexico M State No. 17

M-29-22S-37E

API # 30-025-10508-00-00

Inspection #IGC1521031516

SEP 25 2015

RECEIVED

The referenced well is operated by GP II Energy Inc., 113 Corporate Dr. Midland TX, 79705, and was inspected by the OCD on 7/29/15. It was not in compliance at the time of inspection due to the fact that there was no wellhead in place. The future course of action for this well by GP II Energy will be to move in excavation equipment, expose the casing as necessary and install a new wellhead. When the wellhead is properly installed the MIT will be performed. Sundry Notices of the work and test results will be filed according to NMOCD regulations. Work will begin on or before the Corrective Action Due Date of 11/1/2015. If you have questions or need additional information regarding the plan of action for the referenced well please feel free contact me.
