13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Yates Petroleum Corporation plans to plug and abandon this well as follows:

The well bore has 10' of 30" culvert pipe set and cemented in place with a 5' section of 20" open hole below it for a total depth of 15'. We would like to P&A this well by dumping redi-mix cement into the bore hole filling it to the surface (approximately 3.5 yards with 30% excess), after which we would like to remove the locking device from the top of the culvert pipe and install a ground level dry hole marker. There has been no road work done to gain access to this location as we followed an existing two track road to the location and minimal damage has been done to the worksite itself, therefore whatever clean up needs to be done will be done immediately after installing the dry hole marker.
