E. This exception is requested for the following reasons: <u>Fasken is requesting a flare permit from January 1</u> , 2016 until the end of the year. There is not a near pipeline for the gas to be taken therefore, we have to flare the gas. It would be easier to go ahead and request the full year instead of having to submit a new permit every 90 days. The production foreman already went 3 months without letting me know we had been flaring for awhile.
