	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	PD

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Legacy Reserves Operating respectfully request for an 85' extension to the east side of the pad in order to better accommodate the drilling rig and all future operations. This will allow for a total of 150' of clearance to the east from well center, but still remain within the original archaeological survey boundary. This was an oversight on Legacy's behalf when the original APD was filed and approved.

14. I hereby certify that the foregoing is true and correct. <b>Electronic Submission #378675 verified by the BLM Well Information System For LEGACY RESERVES OPERATING LP, sent to the Hobbs</b>
