13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

EOG Resources requests permission to use gas purchased from the Della 29 Federal CTB for use as gas lift injected into the Della 29 Federal Com # 602H as shown on the attached diagram.

Gas will be measured at a buyback meter downstream from the Della 29 Federal CTB facility check meter. Gas will then be compressed and metered prior to injection into the Della 29 Federal Com 602H.
