	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

ConocoPhillips Company respectfully requests acceptance of this report of an undesirable event, which is below reportable quantities, but migrated into small area off pad. This release was the subject of 19MH142W. The location was scheduled for remediation before your visit on 7/11/19 and was mostly remediated before the notice was received.

Per our discussion on September 18th, the following official notice is provided.  
On January 3, 2019 a produced water and oil fluid release occurred. The release was below reportable quantity, approximately 2 bbls. Contamination was excavated and clean material was used to backfill the location, using backhoe and excavation equipment. Your drawing reflects the impacted area which was remediated. Access to the off-pad area was via the pipeline right of way adjacent to the well location.

14. I hereby certify that the foregoing is true and correct.
