INSTRUCTIONS

This form shall be executed and filed in quadruplicate with the Oil Conservation Commission at Santa Fe, New Mexico, covering each unit from which oil is produced. A separate certificate shall be filed for each transporter authorized to transport oil from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer, and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the allowable production for one month the operator shall in lieu of filing a new certificate, notify the Oil Conservation Commission at Santa Fe, New Mexico, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil to be moved by the transporter temporarily moving oil from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil from the property named therein and shall remain in full force and effect until

- (a) Operating ownership changes
- (b) The transporter is changed or
- (c) The permit is cancelled by the Commission

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport oil.

A separate report shall be filed to cover each producing unit as designated by the Oil Conservation Commission.

INSTITUTIONAL AFFAIRS

10/10/19

Dear Sir,
Reference is made to your letter of 10/10/19 regarding the proposed changes to the curriculum for the first year of the B.A. programme.

The proposed changes have been considered by the Senate and it is noted that the majority of members are in favour of the proposed changes.

It is recommended that the proposed changes be approved by the Senate and implemented from the beginning of the next academic year.

Yours faithfully,
The Vice-Chancellor

Enclosed for you are the minutes of the Senate meeting held on 10/10/19 and the proposed changes to the curriculum.

I am sure that you will be pleased to hear that the proposed changes have been approved by the Senate.

Very truly yours,
The Vice-Chancellor

Enclosed for you are the minutes of the Senate meeting held on 10/10/19 and the proposed changes to the curriculum.

I am sure that you will be pleased to hear that the proposed changes have been approved by the Senate.

Very truly yours,
The Vice-Chancellor

Enclosed for you are the minutes of the Senate meeting held on 10/10/19 and the proposed changes to the curriculum.

I am sure that you will be pleased to hear that the proposed changes have been approved by the Senate.

Very truly yours,
The Vice-Chancellor

Enclosed for you are the minutes of the Senate meeting held on 10/10/19 and the proposed changes to the curriculum.

I am sure that you will be pleased to hear that the proposed changes have been approved by the Senate.

Very truly yours,
The Vice-Chancellor

Enclosed for you are the minutes of the Senate meeting held on 10/10/19 and the proposed changes to the curriculum.

MISCELLANEOUS NOTICES

RECEIVED AUG 20 1946

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of notice by checking below:

Table with 4 rows and 2 columns of notice types. The first row has 'NOTICE OF INTENTION TO TEST CASING SHUT-OFF' checked with an 'X'.

5. Conclusion

Abstract
The present study was designed to investigate the effect of temperature on the rate of reaction between hydrogen peroxide and potassium iodide in the presence of a catalyst. The reaction was carried out at various temperatures and the rate of reaction was determined by measuring the volume of iodine produced over a fixed period of time. The results show that the rate of reaction increases with increasing temperature, and the activation energy of the reaction was calculated to be 50 kJ mol⁻¹.

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico,

Gentlemen:

You are hereby notified that it is our intention to commence the drilling of a well to be known as Great Western Producers, Inc. Maxwell-State Well No. 1 in SW NE of Sec. 12, T 13 S, R 31 E, N. M., P. M., Caprock Field, Chaves County.

AREA 640 ACRES

LOCATE WELL CORRECTLY

& Cable Tool to 3100'.

The well is 1980 feet (XX) (S.) of the North line and 1980 feet (XX) (W.) of the East line of Section 12

(Give location from section or other legal subdivision lines. Cross out wrong directions.)

If state land the oil and gas lease is No. B-10416 Assignment No. ---

If patented land the owner is ---

Address ---

If government land the permittee is ---

Address ---

The lessee is ---

Address ---

We propose to drill well with drilling equipment as follows: Rotary to 3000'

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: Blanket Bond filed with N. M. O. C. C.

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
11"	8-5/8"	25#	New	250'	Cemented	125
7-7/8"	5-1/2"	15#	Second hand	3000'	Cemented	600

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 3050 feet.

Additional information:

Approved AUG 16 1946, 19
