

This formation to be filled with the appropriate formation name. If this formation is not later than 1900, offer the depth to which newly drilled or reopened wells, if all tests are completed, shall be drilled and a satisfactory log run in the well and a complete log of all open hole tests completed, including full itemized data, shall be reported for this. In the case of tests in a newly drilled well, the vertical depth shall also be reported. For a complete list of formations, see the Appendix. All data to be reported for each well. The formation to be filled in part of this except on state land, where it is required to be reported on state land.
