We salvaged 1950' of 7" casing from this well and did not attempt to salvage any of the 8" casing. The hole was cased from a depth of 3700' back to 2250' where a 10-sack cement plug was run. Heavy mud followed back to the base of the 8" casing at 1095' where another 10-sack cement plug was run. Proper marker has been set and cemented and the location has been cleaned and levelled.
