OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

October 30, 1952

(Place)

(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the Carper-State

Carper Drilling Co., Inc.

(Company or Operator)

Well No. A-3 in _____ (Unit)

NE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 32, T. 17 S, R. 33 E, NMPM., Maljamar Pool

(40-acre Subdivision)

Lea

County.

FULL DETAILS OF PROPOSED PLAN OF WORK

(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

On reaching a total depth of 4715' on October 21, we encountered water. A bailing test was made and the well was making 12 gals. of water per hour. We are now waiting for the water to reach a static level so that we can dump ten sack of cement and fill the hole back to 3944' with mud. We will then set a bridge and dump a five sack cement plug which should fill back to 3928'. From 3916' to 3928' the well was making 10 gals. of oil per hour. We propose to shoot from 3915' to 3928' with a 5½" shell using 60 qts. of nitro. On top of the shot we will set a bridge and dump a cal-seal plug. Well will then be cleaned out and a test made to see if it is a commercial producer before running the production string.

Approved OCT 30 1952, 19____
