Artesia, N.M., August 21st, 1965

Jockburn-Federal
Well No. 7 is located 2520 ft. from N line and 1000 ft. from E line of sec. 33

34 1/4 34 1/4 34 1/4-33 17 33 2 1/2
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)
Colfax La New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is _____ ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Attempted to deepen well in accordance with notice approved July 15th, 1965. 6" bit would not go deeper than 2400' but 4 3/4" bit would go to bottom. Since used 7" casing was run when well was drilled we decided not to attempt to deepen this well and drill a new well in the N 1/4 of this tract.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
