Federal "T" Lease

Well No. 13-13 is located 1980 ft. from N line and 660 ft. from E line of sec. 13

N 1/4 SW 1/4 sec. 13 18 S 33 E N.M.P.M.
(1/4 Sec. and Sec. No.) (Twp.) (Range) (Meridian)

E-A Queen Lee New Mexico
(Field) (County or Subdivision) (State or Territory)

The elevation of the derrick floor above sea level is 3935 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

I plan to drill a 4350' Queen sand test. Rotary tools will be used to approximately 1580', and cable tools from there to t.d..

8 5/8" casing will be set in the top of the anhydrite about 1580'. This is predicated on there being no surface water at this location. I will drill to 250', bail the hole dry, and check for any possible water. If water is found, will set 13 3/8" at 250' with 200 sacks before drilling ahead.

The 5 1/2" oil string will be cemented in the Queen sand at approximately 4315' with 100 sacks.

All casing will be run and cemented using methods approved by the U.S. Geological Survey

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.

Re: Oil and Gas Lease
NM 04591

Dear Sir:

Receipt is acknowledged of your "Notice of Intention to Drill" dated February 1, 1957, covering your well No. 13-13 Federal "T" located in the NW1/4SW1, section 13, T. 18 S., R. 33 E., E-X Queen Pool, Lea County, New Mexico.

Your proposed work is hereby approved subject to compliance with the provisions of the "Oil and Gas Operating Regulations" revised May 25, 1942, a copy of which will be sent you upon request and subject to the following conditions:

1. Drilling operations so authorized are subject to the attached sheet for general conditions of approval.
2. Notify this office in sufficient time to arrange for a representative to witness the cementing operations and water shut off tests.
3. Furnish this office with a sample log from the base of the salt to total depth and four copies on our log of oil or gas well, form 9-330.

Very truly yours,

John A. Frost
District Engineer
